

Construction Testing Asphalt Lab Ltd.

Join our Team

CTA Lab has been in business for over 20 years focused in asphalt, aggregate and concrete testing for the Transportation sector for highway and city infrastructure.

A typical day on the job might look like:

- Getting your hands dirty testing aggregates, soil and concrete in our lab;
- Working with others to start and finish testing;
- Celebrate learning milestones; and
- Working in a laboratory environment that encourages continually learning through hands-on training practices.

Our Team Members have an applied science background and are continually learning and receiving training from certified members. Individuals who are interested in a technical position, future engineering or geoscientist career are welcomed to apply as the organization.

Other Team Member Perks:

- Standardized wage increases year-over-year;
- Medical benefits, including Drugs, Vision, Extended Health Care, Registered Specialist and Therapists, Travel Insurance and more;
- Retirement planning made easier with employer matched contribution for First Time Home Buyers Plan and Life Long Learning Plan;
- Students and parents with students in household eligible for national scholarship¹ (application required);
- Commuter Benefits; and
- Exclusive Discount benefits.

Join Our Team! Apply to jobs@ctalab.ca and reference the job ad number and position.

Roles available:

- **Laboratory Helper – Part-Time - \$18.75/hr + \$500¹**
- **Laboratory Tester – Full-Time Contract ending December 2026 - \$18.75/hr during probation – then \$22/hr+\$500¹**

¹ Conditions apply

Please note: Applicants who are on temporary work permit or international student permit have found this job favorable for the Ontario Immigrant Nominee Program because this employer is classified under the Sub-Major Group 223 (Technical occupations related to engineering). Individuals who have science-engineering-technology-mathematic (STEM) background are welcomed to apply.
